Dr. Ali Tehrani receives Alumni Builder Award

Submitted by parvin on November 2, 2017 - 9:04am

For outstanding contributions to UBC and the larger community

Dr. Ali Tehrani
Co-founder, President & Chief Executive Officer, Zymeworks
PhD, UBC Dept of Microbiology & Immunology

100 years of alumni UBC
325,000 alumni
ALUMNI UBC is marking its 100th year with alumni UBC 100, a year-long celebration of the power of UBC's global alumni community. The Alumni Builder Awards were established as part of alumni UBC 100, to recognize alumni who have made important contributions to the success of UBC and the larger community. UBC units were invited to nominate alumni for this award.

It is our pleasure to honor an alumnus or our department, Dr. Ali Tehrani with the Alumni Builders Award. This award recognizes his service to the Faculty of Science and his many contributions to the biotech industry both locally and globally. Ali completed both Bachelors and Masters degrees in Biochemistry at the University of Massachusetts, and then did his PhD at the University of California, San Francisco. After completing his PhD, he worked at various biotech companies before founding Zymeworks in 2003 and he is currently the President & Chief Executive Officer of Zymeworks. Congratulations to Ali!
