

G3S

The **Grad Student Seminar Series (G3S)** kicks off on Wednesday, September 21st, 2016 at 1pm in LSI 1510, so don't miss out on the great science done by your peers! Two 20min presentations will be held every Wednesday at 1pm in LSI 1510. There will be coffee and cookies!

MIGSS proudly presents:

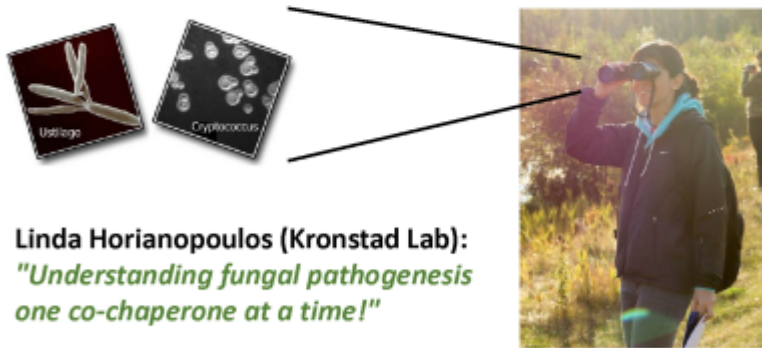

G3S

Graduate Student Seminar Series

Seminar of Week 1, September 21st 2016:

Kylynda (Finlay Lab) and Chris (Suttle Lab):

A quick introduction to G3S

Linda Horianopoulos (Kronstad Lab):
*"Understanding fungal pathogenesis
one co-chaperone at a time!"*

**Wednesday September 21st
2016**

1pm to 2pm LSI 1510

<https://www.microbiology.ubc.ca/graduate/migss/g3s>

We'll have a short intro to G3S by the organizers followed by a presentation from Linda from the Kronstad lab on fungal pathogenesis.

Linda is a passionate birder (to see her in action, check the flyer) and when not scrambling around the rocky pacific shoreline trying to catch a glimpse of a visiting Wandering Tattler, she can be found nurturing her patriotic spirit by shopping in the most Canadian of retail businesses, a Canadian Tire!

PS: We still have a few spots open to present, specifically on October the 5th! So come one and sign up with Chris (chrdeeg@gmail.com ^[1])! \$350 could be yours for a mere 20 min of sharing your research!
